

National Youth Traffic Safety Month[®]

50 Best Awards Announced **Sponsored by The Allstate Foundation**

Youth teams from across the country joined in making NOYS about youth traffic safety during May. With prom, graduation, and summer being among the deadliest times on the road for teens, these youth took action in their communities to remind their peers to drive and ride safe. They used their youth creativity to develop and implement projects that impacted their local communities. To view more information about their projects please visit the map at www.noys.org.

The following teams won \$1,000 for their youth traffic safety projects. Please join us in congratulating them and join them in 2010 by developing your own local youth traffic safety project.
